EDUCATION

Galgotias College of Engineering and Technology

B.Tech in Computer Science and Engineering (AI & ML)

Greater Noida, India 2025 – 2028

Government Polytechnic Rajgarh Mirzapur

Percentage: 73.85%

Diploma in Computer Science and Engineering

Rajgarh, Mirzapur, India 2022 – 2025

SKILLS

Languages: Java, Python, JavaScript

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, Django

Databases: MySQL, MongoDB, SQLite3

Core Concepts: OOP, DBMS, Operating Systems, Data Structures & Algorithms, Computer Networks

Tools: Git, GitHub, VS Code, Postman

PROJECTS

Interview AI Agent | Full Stack

Live Demo

React.js, Node.js, Express.js, MongoDB, Firebase, Razorpay, Framer Motion

- Built an AI-powered interview platform with Google Authentication and Razorpay Payment Integration.
- Developed responsive user interfaces and REST APIs using React.js, Node.js, and Express.js with MongoDB for data management.
- Implemented authentication, interview management, payment integration, and user-specific interview workflows.
- Deployed the full-stack application on Render for production use.

StayAura – Full-Stack Accommodation Listing Platform

Node.js, Express.js, MongoDB, EJS, JavaScript, HTML, CSS, Bootstrap

- Developed a full-stack accommodation listing platform for users to explore and manage property listings.
- Implemented CRUD operations for creating, editing, viewing, and deleting accommodation listings.
- Integrated user authentication and authorization for secure access to platform features.
- Added reviews and ratings functionality to enable users to share feedback on properties.
- Used EJS for dynamic server-side rendering and MongoDB/Mongoose for database management.

School Management System

Python, Django, SQLite3, HTML5, CSS3, JavaScript, Bootstrap

- Developed a school management system for Seth Anandram Jaipuria with separate Admin, Teacher, and Student modules.
- Implemented backend functionality using Python and Django with SQLite3 for database management.
- Designed responsive interfaces using HTML5, CSS3, JavaScript, and Bootstrap for efficient management of school activities.

ACHIEVEMENTS

- Solved coding problems on LeetCode, demonstrating problem-solving and algorithmic skills.
- Participated in college hackathons and worked on real-world software projects.
- Developed LOSFER, a campus Lost & Found platform with AI-based image moderation, item matching, and secure handover features.
- Developed InterviewAI, an AI-powered interview platform with authentication and interview management features.
